

**Tony M. Brewer, Chief Technology
Officer and Cofounder**

Brewer is responsible for the technical strategy and direction of the company, including defining the architecture for Convey's hybrid-core computer, the Convey HC-1™. Brewer coordinates closely with software and hardware teams to ensure technical excellence. Prior to joining Convey, Brewer was a system architect for Fujitsu Network Communications, director of system architecture for Chiaro Networks, and architect of Hewlett-Packard's high-end scalable servers. Additionally, Brewer was instrumental in designing the second-generation scalable MPP system at Convex Computer Corporation. Brewer earned both his bachelor's and master's degrees in electrical engineering from Purdue University. He is the lead inventor on more than 20 patent applications.
